PROJECT BACKGROUND:

The Build4People project is funded by the German Federal Ministry of Education and Research (BMBF). The project consortium on the German side consists of four universities and two companies. Consortium leader is the university of Hamburg. The Build4People project promotes sustainable buildings and sustainable urban development from a people-centred perspective. Our innovative team works on a trans-disciplinary basis and develops innovative concepts based on proven scientific and regional expertise together with local partners, which directly target urban sustainability.

The connecting scientific-conceptual, analytical and superior normative bracket is always the notion of *urban quality of life*.

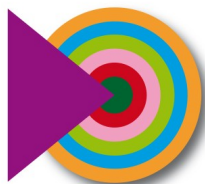

Mengly J. Quach Education is partner and beneficiary of Build4People's GREEN SCHOOL DEMONSTRATION Project – one of the most important dissemination activities.

Please, find more details at our project website: <https://build4people.org>.

OBJECTIVE:

The Build4People Roundtable Workshop aims to develop a common understanding of the GREEN SCHOOL DEMONSTRATION Project and define activities and outputs from the project that will be used by Mengly J. Quach Education to achieve the defined project objectives. The
